1. Work Session Reports

- A. ID 17-1016 Receive an update on Peterbilt Motors Company and participate in a tour of the facility.

Jim Fykes, Operations Liaison for Peterbilt Motors Company, stated that Peterbilt was a division of PACCAR. The Denton plant was the company's third manufacturing plant and opened in 1980. The division office relocated to Denton in 1992. The Denton plant employs 2,500+ employees. The plant was approximately 710,000 square feet. He reviewed some of the benefits available to employees. Fykes stated that local suppliers made different parts for the trucks as well.

Fykes stated that Peterbilt trucks were among the industry's most environmentally clean and fuel efficient. Peterbilt's facilities promoted continuous reduction of air emissions, packaging waste, waste solvent, hazardous waste, energy use and landfill disposal. Both management and employees maintained a company-wide philosophy that ensured Peterbilt continued to promote recycling and reduce pollution and waste.

With no further business, the meeting was adjourned at 12:07 p.m. and attendees participated in a tour of the facilities.
