

Librada “Lily” Cantú Inclusive Playground Master Plan

Community Meeting (Virtual) #1

Welcome! We'll begin shortly!

FOR ALL!

Welcome!

Today's Agenda

- 1) Project Team
- 2) Project Information & Goals
- 3) Site Analysis
- 4) About Lily Cantú & Theme
- 5) Engagement & Project Timeline
- 6) Q/A

Ways to participate in today's meeting

Q&A: (Preferred) Type your question into the Q/A feature located at the bottom of your zoom screen.

Chat: Add comments or responses using the Chat box in a pop-out window.

For anyone who is hearing impaired, we have provided an American Sign Language Interpreter to this call and will remain on screen throughout the presentation.

This session is being recorded, and recording will be uploaded to the Inclusive Playground project page at www.discussdenton.com

Meet Our Project Team

Focus Group

Denton County MHMR, UNT, TWU, Denton ISD, Lewisville ISD, Lake Dallas DISD, Cook's Children, Texas Health, United Way, Denton Park & Beautification Board Member, Denton Committee on Persons with Disabilities Board member, Occupational & Recreation Therapists

Librada “Lily” Rose Cantú Immediate Family (Siblings)

Project Consultant

in consultation with
STAR Institute for Sensory Processing

Parks & Recreation Staff

What is an Inclusive Playground?

A UNIVERSALLY DESIGNED, SENSORY-RICH ENVIRONMENT THAT ENABLES ALL CHILDREN TO DEVELOP PHYSICALLY, SOCIALLY, AND EMOTIONALLY IN THE SAME SPACE.

By law, all playgrounds must be ADA compliant, but they are all not necessarily Inclusive. An Inclusive playground takes into account physical, intellectual, and sensory disabilities.

1 in **6** children have one or more developmental disabilities (CDC)

1 in **4** adults live with a disability (CDC)

92% of disabilities are not visible (CDC)

INCLUSIVE MEANS EVERYONE

Community Engagement

January 2022	Parks, Recreation, and Trails System Master Plan
October 2022	Parks received funding to hire design consultant
Spring 2023	Design Consultant hired
November 2023	Bond Program Proposition C Passed
	<i>Issued 3.45M towards construction of Project</i>

What is one word you would use to describe how you envision the parks system in the future?

Popular Unique Safe
Growing Family-Friendly Holistic
More activities for seniors
Accessible Envisionable Walkable
Cohesive Overlapping Larger
Usability Innovative Native
Plans for population growth Complete
Connected Inclusive
Sustainable Responsive
Inviting Multi-Complex

What are the biggest challenges denton faces now and in the future for parks and recreation?

MULTI-SENSORY PLAY

GOAL: PROVIDE COMFORTABLE AND SUPPORTIVE SENSORY STIMULATION THROUGH THE NATURAL ENVIRONMENT FOR THE FACILITATION OF SELF-REGULATION AND SOCIAL PARTICIPATION.

DESCRIPTION:

Sensory Processing Disorder (SPD) is a framework first described by occupational therapist A. Jean Ayres, PhD, in the 1970's. It is a term that refers to the way the nervous system receives messages from the senses and turns them into appropriate motor and behavioral responses.

Clinical studies of children without various disabilities have estimated SPD affects between 5% and 10% of children. However, for children with various disabilities, estimated rates of those affected by SPD have been reported to be as high as 40% to 88%. (Ahn, Miller, Milberger, McIntosh, American Journal of Occupational Therapy, 2004).

Many children with autism also have some form of SPD. This is most often reflected in the hypo- or hyper-sensitivity to sensory stimuli including sound, sight, smells, tastes, and textures. This sensitivity to the senses, coupled with the inability to filter input from additional external stimuli, can become overwhelming and lead to tantrums and melt-downs. (Sachs, Vincenta, Implications, 2011).

In addition to the five far senses (auditory, visual, tactile, smell, and taste), Dr. Ayres identified three other senses commonly referred to as near senses. These internal senses include Vestibular, Proprioception, and Interoception and unlike the far senses, operate without conscious thought and can not be observed.

Consideration for sensory stimulation in playground design is imperative to developmental play and skill building in children. Through thoughtful sensory stimulation, nature-based play can assist in facilitating a satisfactory response to the natural environment and social settings for children with physical and cognitive disabilities.

NEAR SENSES

- OPERATE WITHOUT CONSCIOUS THOUGHT -

- VESTIBULAR INPUT
SENSE OF POSITION AND MOVEMENT
- PROPRIOCEPTIVE INPUT
JOINT AND MUSCLE SENSE
- INTEROCEPTION INPUT
SENSE OF INTERNAL ORGANS

FAR SENSES

- RESPOND TO EXTERNAL STIMULI FROM THE ENVIRONMENT -

- AUDITORY
- VISUAL
- TACTILE
- SMELL
- TASTE

SENSORY INTEGRATION
MANIPULATION OF INPUT INFORMATION FOR AN OUTPUT RESPONSE TO THE ENVIRONMENT

DEVELOPMENTAL PLAY

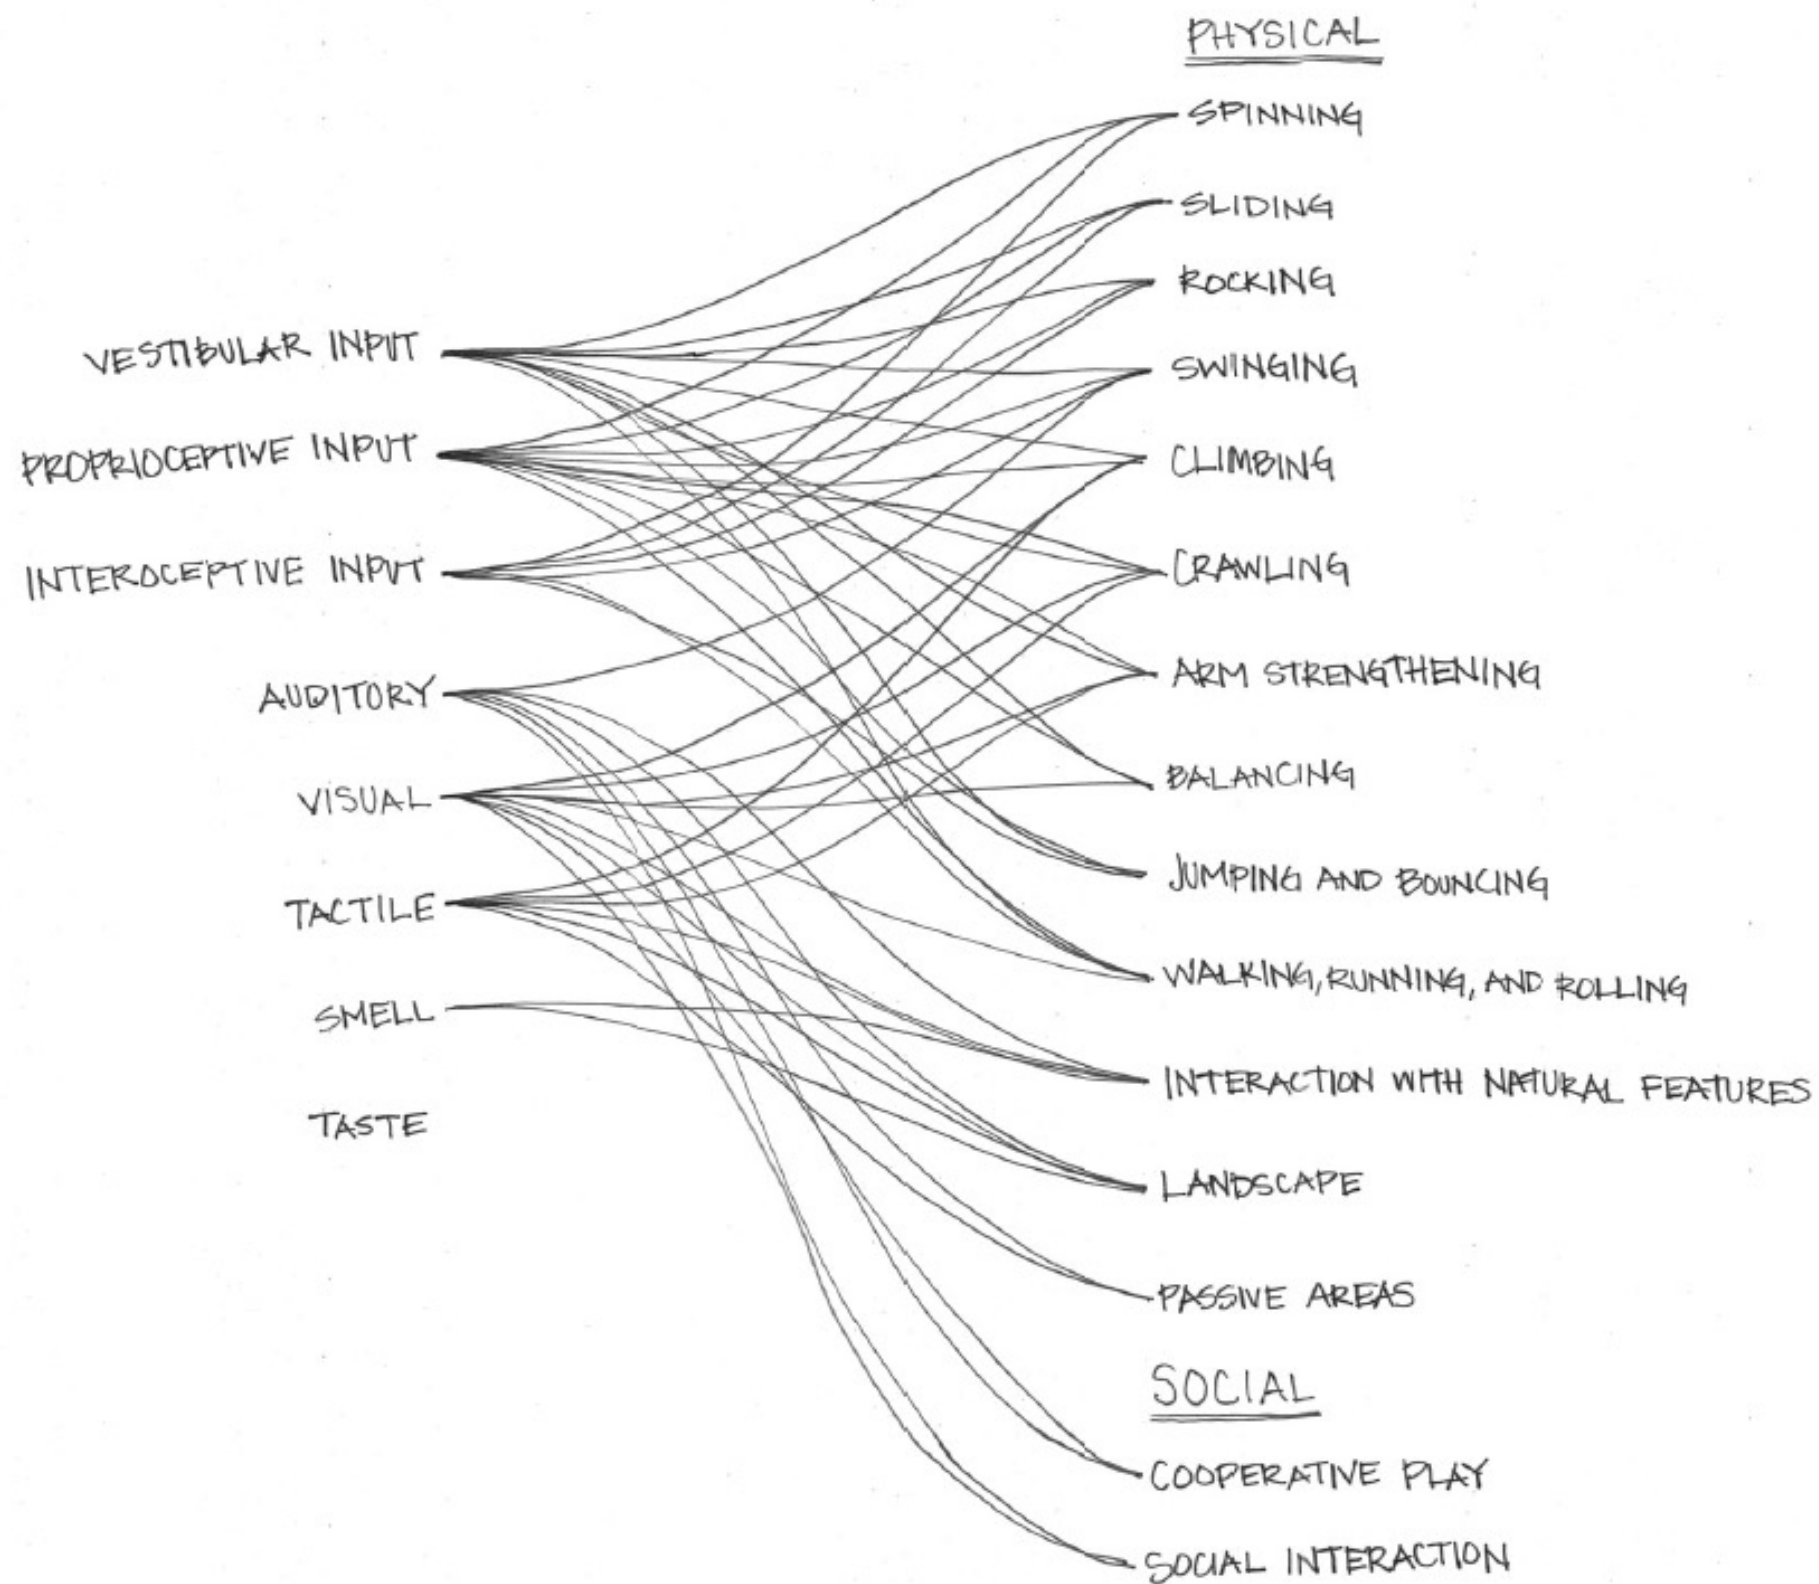

- ENCOURAGEMENT OF SKILL BUILDING -

- **MOTOR PLANNING**
· ALLOWS CHILDREN TO CONCEIVE, ORGANIZE, AND CARRY OUT UNFAMILIAR SEQUENCES OF MOVEMENT IN A COORDINATED MANNER.
- **SOCIAL & COOPERATIVE PLAY**
· OPPORTUNITIES FOR IMAGINATIVE PLAY, TAKING TURNS, AND CONVERSATION ARE VITAL TO A CHILD'S DEVELOPMENT, AS WELL AS ASSISTING THEM IN NURTURING THEIR RELATIONSHIPS WITH OTHERS.

DESIGNING FOR MULTI-SENSORY PLAY

EIGHT SENSES

PLAY EXPERIENCES

MULTI-SENSORY PLAY WEB DIAGRAM

LIBRADA "LILY" CANTÚ PLAYGROUND

Project Goals

1. Design for a **wide range of ages and abilities** allowing all visitors to participate in play
2. Incorporate **sensory-rich** play elements while remaining mindful of potentially overstimulating stimuli
3. Provide close proximity to **comforts and conveniences** (i.e. shade, bathrooms, drinking fountains)
4. Provide **sufficient accessible parking and pathway circulation**
5. **Engage local resources** to inform playground design decisions
6. Design with **project phasing** in mind
7. Craft a plan for adequate **site maintenance** and staffing

DENTON PARKS MASTER PLAN

LEGEND

- CITY PARKS

Larger parks that draws residents from across the city and is often used to host citywide events. 300-500 acres in size. Service area 0-10 miles.
- COMMUNITY PARKS

Larger park that serves multiple surrounding neighborhoods 20-50 acres in size. Service area 0-5 miles.
- NEIGHBORHOOD PARKS

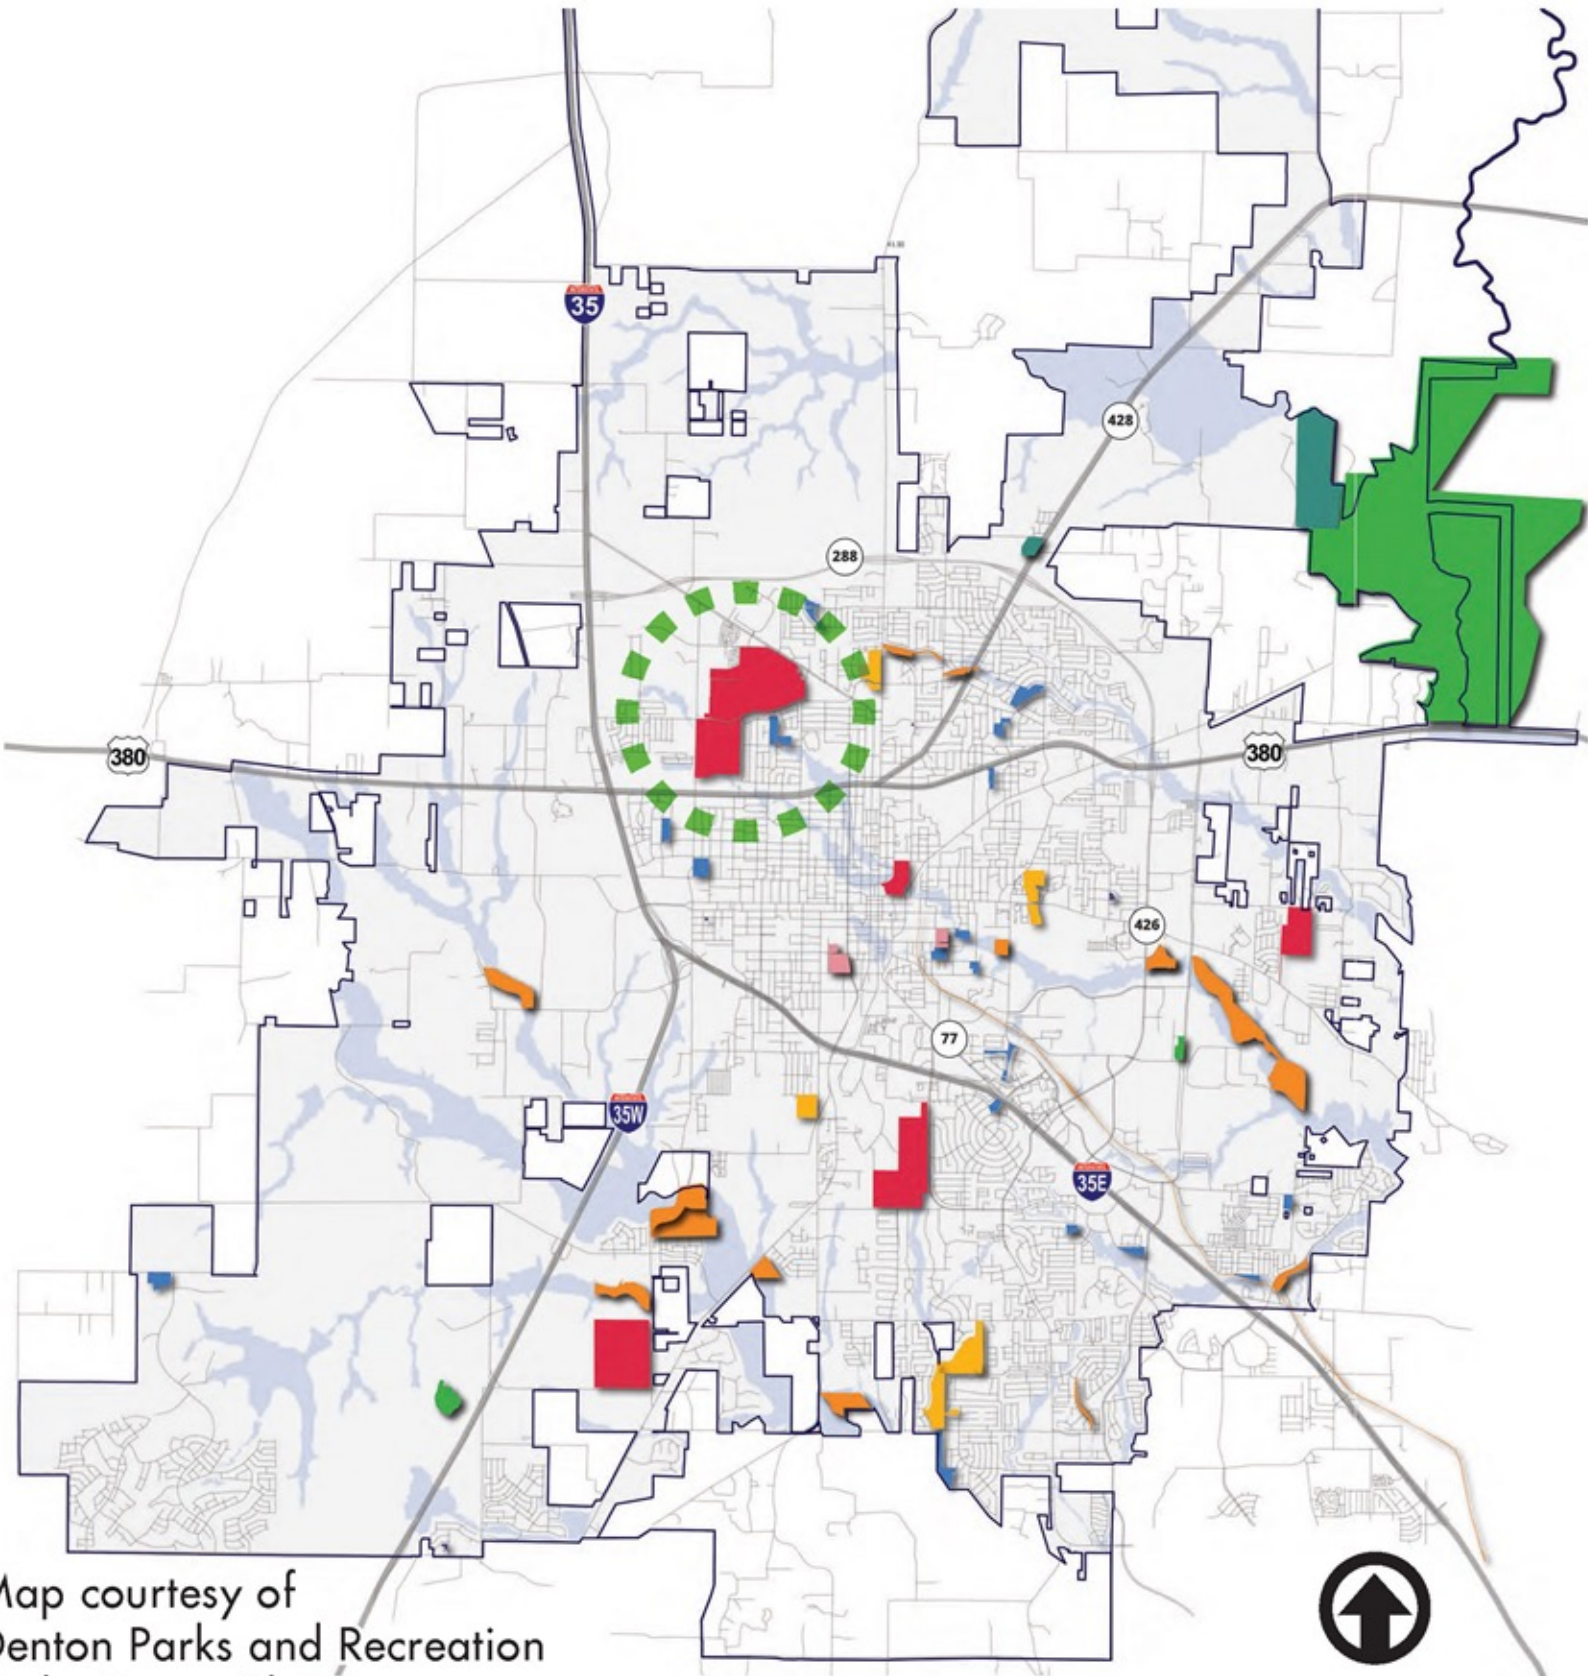

Small to medium sized parks within walking distance of the immediate service population. 3-20 acres in size. Service area 0-1 miles.
- POCKET PARKS

Small park accessible to the public that often fills gaps in park coverage. 0-3 acres in size. Service area 0-0.5 miles.
- PRESERVE

Protected area of land with varying size. Service area is city wide.
- LINEAR PARKS

A greenway or stretch of open space that can vary in size but is typically longer than wide. Service area is city wide.
- SPECIAL USE PARKS

Has a dedicated or unique use with varying size. Service area is city wide.
- CEMETERY

MESA

PLAYGROUND SLOPE ANALYSIS

Future Librada “Lily” Cantú Playground shall not exceed 2% slope in all directions. Accessible routes to and from existing pavilions, restroom, and parking lot shall not exceed 5% running slope and 2% cross slope.

LEGEND

0-2% SLOPE	15-20% SLOPE
2-5% SLOPE	20-25% SLOPE
5-8% SLOPE	25-30% SLOPE
8-12% SLOPE	30-35% SLOPE
12-15% SLOPE	

PLAYGROUND SLOPE & DRAINAGE

This image shows some of the major erosion directly off of the parking lot.

This image shows some erosion on the site due to the slope and the unmitigated water flow.

Exposed tree roots due to erosion from unmanaged water flow.

LIBRADA "LILY" CANTÚ PLAYGROUND

DENTON, TX

About Librada “Lily” Rose Cantú

- The renaming of the playground was adopted by City Council in 2022
- Lily grew up in Denton, and spent much time out at the North Lakes Playground with her family
- Lily grew a passion for helping kids from all backgrounds, which led her to volunteer at a home for medically fragile children in Peru
- Lily’s family remembers her as someone with humility, open mind, and always willing to help

“Lily always walked with bravery, kindness, and love”- Mari Cantú

In Summer 2023, Mesa Design and Parks and Recreation met with the family to learn more about her story and ways to honor her legacy on the playground.

In Winter 2024, based on feedback received, Mesa Design & Parks and Recreation met with the family to introduce conceptual illustrations and feedback on a design. Ultimately, the family supported and felt the following theme represented Lily the best.

POLLINATOR'S PATCH

PROPOSED THEME APPROVED BY CANTÚ FAMILY

Lily's middle name and her love for flowers inspired this bumble bee themed concept which integrates environmental education elements into a themed play experience.

The different play zones, or "hives", incorporate various play experiences including an active 'worker bee' hive, a collaborative play 'social bee' hive, an educational passive play hive, and a 'young bee' hive which encourages imaginative play.

Lily's love for flowers and her commitment to a better world for children are celebrated in this themed concept.

CONCEPT MASTER PLAN

THIS PLAN AND THE DESIGNS DEPICTED ARE CONCEPTUAL IN NATURE AND ARE CONSIDERED PRELIMINARY AND SUBJECT TO CHANGE.

Project Timeline & Next Steps

Public Engagement Spring - Summer 2024

March 28 – Virtual Community Meeting

April 1 – Park Board Meeting

April 11 – Committee on Persons w/ Disabilities

April TBD– In-Person Community Meeting

May/June TBD – Council Session

Attend Events & Issue Survey

Seek Final Adoption Fall 2024

Start Construction Documentation Fall 2024

Bid Project & Start Construction Spring/Summer 2025

Grand Opening Summer 2026

Subject to change pending weather, or any other related design or construction delays
